Upcoming Special Event in July:

ORGANIZATION AND ACTIVISM 101

The Persistence of Discrimination:

Why it Exists, Despite Decades-Old Civil Rights Laws; and How a Multidisciplinary Response By Lawyers, Therapists, Educators, Health Care Professionals, Artists, Community Activists and Journalists Can Help

Saturday, July 22, 2017

10am-1pm

All are welcome to this Cross-Disciplinary Seminar that is open to the public and available via videoconference. **This workshop provides 3 hours of CEUs for Attorneys, Educators, Healthcare Administrators and Health Care Professionals, Nurses, Psychologists, LMFTs, LCSWs, and LPCCs.**

Guest presenter and Bay Area Human Rights Attorney Michele Magar will address the persistence of discrimination decades after enactment of civil rights laws, and how lawyers, therapists, educators, culture creators, and journalists are finding new ways to address it.

We will screen the 18-minute film, *The Power of 504*, which captures the birth of the disability rights movement when it occupied the federal building in San Francisco for 26 days in a successful effort to force the federal government to issue implementing regulations to a law barring disability-based discrimination.

Michele Magar is a Bay Area Human Rights lawyer and award winning journalist who uses a broad range of advocacy tools to advance civil and human rights.

Cost: \$30 for CEU Credit. \$10 donation requested from other participants. CEUs can also be accessed by internet/video conference.
